- Polycoated and zinc plated steel for no rust durability.
- Free standing yet extremely stable (easily disassembled).
- Warranted for your confidence.
- Requires 21' x 25' space (for national compliance).
- Sealed and stained wood and/or plastic composite wood railings and decking.

"Developmental play with a purpose to equip children to gain strength, coordination and confidence" has been our focus since 1985. Gym-Master Fun Centers are developed using current national playground safety standards*. We firmly believe that safe play is no accident and that our Little Monkeys Fun Centers will provide years of safe, durable and affordable fun. Owners and operators of day care centers and preschools will be happy to know that our play structures have been extensively kid-tested and approved. Not only will your children love them, their parents will too! Parents want their children to be physically and mentally active; and Little Monkeys Fun Centers provide exactly that.

*To meet ADA guidelines, a wheelchair platform can be added.

Creative Add-On Accessories for your Little Monkeys Fun Center

Safety Notes

* National safety standards require 6' distance from edge of the play unit to the playground border.
* Standards also require a protective surface i.e. sand, bark, padding, pea gravel, etc.
